Bautista Berto, Frontend Developer

Buenos Aires, Argentina, 1157964781, bertobautista03@gmail.com

PROFILE

As a Frontend developer with 3+ years of expertise and a proven track record of building projects from the ground up for companies and personal projects. I thrive on turning ideas into fully functional, stunning applications with proficient use of ReactJs, Typescript, Threejs. Expertise working with world-wide teams developing and collaborating to create projects from zero to one.

PROFESSIONAL EXPERIENCE

Dec 2022 — Jun 2024

Frontend Developer, LambdaClass

I took the lead in bringing a mobile game to life as the main Frontend developer, building it from the ground up with teams from the US and Europe.

In addition to game development, I have worked on a variety of websites, applying my expertise to create engaging, high-performance user experiences.

- For the mobile game and engine: C#, Unity, Elixir.
- For the websites: JavaScript, GSAP, TailwindCSS.

Jul 2022 — Mar 2024

Frontend developer, National University of Lanús

I was invited to be part of the development and investigation team of my university, developing a project for a public organization called ACUMAR.

This project involved developing an interactive and efficient web interface to monitor weather conditions in real time.

- Technologies used : ReactJS, MaterialUI , Docker, Git, Figma.
- Methodologies used: Scrum , Kanbam.

EDUCATION

Jan 2020 — Present

Bachelor of information systems, Universidad Nacional de Lanús   Buenos Aires

Advanced student , currently in the 4rd year of the career. I was invited to be part of the research and development department creating software solutions for real purposes.
